

Trommel TS

PRODUCT DESCRIPTION

Trommel TS is a series of drum trommels used for sorting food soil, compost soil, bark mulch, cover bark, garbage and ash from waste incinerators etc.

The sorting takes place as the material enters a rotating drum where all the fine material passing through the sieve holes falls out at the bottom of the ground or on a conveyor belt.

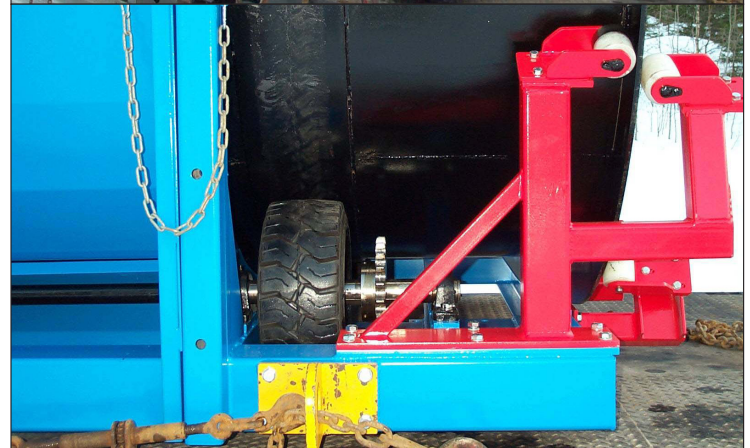

The trommel can be fitted with a top-mounted brush for self-cleaning of the drum.

Trommel TS are available in three fixed lengths; 7 m, 9 m or 13 m, but can be manufactured in a customer-selected length.

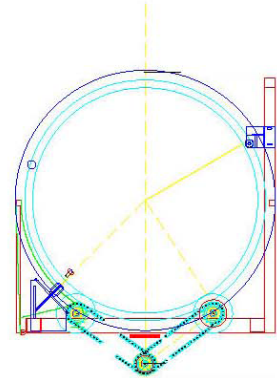

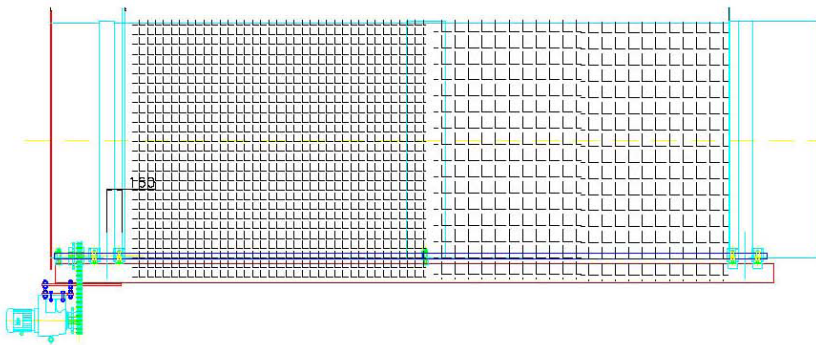

The hole size in the drum can also be customized.

OPTIONS

- Top-mounted brush.
- Installation.
- The hole size in the drum can be adjusted according to the customer's purpose.
- Can also be manufactured in a larger variant with 2400 mm diameter.
